

As the graduates get ready to move onto their next school, they did a lovely picture about what they love best about The Willow, it is a lovely memento to have. Some of the youngest children painted brightly coloured beach balls talking about the colours they were using as they painted.

Cooking was a sweet treat delight, the children diced bananas, sliced strawberries and pineapple before threading them onto a kebab stick. It was all topped off with a drizzle of chocolate. Billy's mother, Claire came in to read a lovely story in the garden making the most of the fine weather. Thank you for coming in.

We finished the term with our final messy play using shaving foam. It's definitely a firm favourite.

We had a lovely visit from two of our old boys, Nicolas and Freddie who came to talk about their experience of starting at a new school. They spoke with such confidence and told the children about all the many things to look forward to at school.

The highlight of the week was the leavers Summer Show. The children sang and danced their little hearts out and made us all immensley proud of all that they have achieved, we hope you enjoy watching it with loved ones.

As always, the last day was full of playball and party fun! Thank you for the delicious treats you brought for your children to enjoy and they had a lovely time playing the party games afterwards. A big thank you to Olivia Salter and family for making a spectacular William Willow cake for the party, everyone said it was absolutely delicious.

Have a lovely summer and see you in September.
